PAULINE GOBÉ

Ingénieure IMAC

Hello, I'm Pauline, a creative engineering student in my final year. I love being able to implement new things and engage in mental gymnastics sessions to find solutions.

I am currently seeking a 6-month internship in full-stack or frontend web development to complete my studies. I am open to potential employment if the collaboration goes well! I am available starting March 2024.

To discover my projects and see my portfolio clik on this text !

Schools

2023

Bremen Universität
Erasmus. Master Digital Medien. App mobile development, technologies for media and web, 3D modelisation...

Sept 2021

ESIEE - Spécialité IMAC
Specializing in Multimedia Image, Audiovisual, and Communication. Creative engineering studies in the digital domain encompassing programming, mathematics, video, graphics, motion design, 3D, and more.

Sept 2021

INSA Rennes - Spécialité GPM
Generalist engineering school. Specialization in Materials Physics Engineering. Reoriented in 2021.

Experiences

2023

Internship Veoneer
12-week internship. Implementation of a complete scheduling tool (design on Figma, front-end and back-end development) from A to Z.

2022-2023

Tutored project - Shogureign
Tinder-like game for intuitive learning of kanji characters. Application developed in React Native. Creation of the scenario, game design, and implementation of the application.

2015

Discovery Internship - Enozone
Internship in a startup specializing in 3D augmented reality and virtual reality services. Exploration stage working alongside two 3D graphic designers using the 3DS Max software.

2018, 2019 2022

Communication manager
Three mandates as Communication Manager:
- Bebop Insa Rennes (2018-2019): Association involved in concert organization.
- Foyer Insa Rennes (2019-2020): Associative bar, event hosting, management of a venue with a capacity of 800 people.
- BDE IMAC (2022-2023): Oversight of student association activities, coordination of diverse events (WEI, Gala, Secret Santa, short film screenings...).
